Privacy Policy

Effective Date: March 2026

At AI Wedding Concierge, we value the trust you and your guests place in us. Here is how we handle your data.

1. Data We Collect

- Couple Data: Names, event locations, schedules, and registry links.
- Guest Data: Chat logs, IP addresses (for security), and any personal info shared during the chat.
- Usage Data: How often questions are asked to help us optimize the AI's performance.

2. How We Use Your Data

We use your data strictly to:

- Power the AI Concierge and answer guest questions.
- Improve our machine learning models (Note: We use de-identified data for training to ensure privacy).
- Send critical logistical updates if the couple has opted into SMS/Email notifications.

3. Data Security & Retention

- Zero-Sale Policy: We never sell your guest lists or personal data to third-party advertisers or wedding vendors.
- Deletion: We automatically archive and can delete wedding-specific data upon request.

4. Third-Party AI Sub-processors

We use industry-standard LLM providers to process chat queries. These providers are bound by strict data processing agreements to ensure your data is not used for their general model training.
