About Founder

Deepak Jain
Founder & CEO (Bondbrite Industries)

“Our journey began with a simple vision—to create adhesive solutions that customers can trust and dealers can proudly recommend. Every product we manufacture is backed by our commitment to quality, reliability, and long-term relationships.

Mission

To manufacture and deliver high-quality adhesive and bonding solutions that consistently exceed customer expectations through innovation, reliability, and superior performance. Our mission is to empower industries, retailers, and consumers with products that create strong and lasting bonds while ensuring maximum value and satisfaction.

Why Choose Bondbrite?

- Consistent Product Quality
- Strong Bonding Performance
- Dealer-Friendly Business Policies
- Competitive Pricing
- Reliable Supply Chain
- Professional Customer Support

Vision

To become one of India’s most respected and trusted adhesive brands by delivering innovative products, building strong dealer networks, and maintaining uncompromising quality standards. We envision Bondbrite products reaching every corner of the country while setting new benchmarks for quality, reliability, and customer trust.

Fixokit®

HIGH STRENGTH INSTANT ADHESIVE

INSTANT ADHESIVE GENERAL PURPOSE

Description : Fixokit Instant Adhesive is a high-performance cyanoacrylate adhesive designed for fast and reliable bonding across a wide range of materials.

Available Sizes : 0.5 ml, 2 ml, 8ml, 10ml , 12ml ,15 ml, 18ml ,20 ml, 50 ml

Viscosity : Low viscosity (water-thin consistency)

Key Features:

- Instant bonding within seconds
- Strong adhesion
- Smooth flow for precise application
- Suitable for multiple materials

Applications: Plastic, rubber, metal, ceramic, Electronics, and general-purpose repairs

Shelf Life : 12 Months

Fixokit[®]

HIGH STRENGTH INSTANT ADHESIVE

FIXOKIT – HIGH VISCOSITY ADHESIVE (WPC / PVC / WOOD GEL)

Description : Fixokit High Viscosity Adhesive is a thick gel formulation developed for heavy-duty bonding applications. It provides excellent gap-filling properties and strong adhesion on vertical and uneven surfaces.

Available Sizes : 50 ml, 125 ml, 250 ml

Viscosity : High viscosity (approx. 1500–2000 CPS)

Key Features:

- Non-drip gel consistency
- Gap-filling capability
- Strong and durable bond
- Ideal for heavy materials

Applications: WPC boards, PVC panels, woodwork, furniture, and interior installations

Shelf Life : 18 Months

Fixokit®

HIGH STRENGTH INSTANT ADHESIVE

Fixokit 210 (High Strength Grade)

Description : Fixokit 210 is a high-performance cyanoacrylate adhesive designed to deliver stronger and faster bonding than standard grades.

Available Sizes : 20 ml, 50 ml

Key Features :

- High Strength Bonding
- Fast Setting Time
- Multi-Surface Compatibility
- Non Whiteness

Applications : Specially For Acrylic Board

Shelf Life : 8 Months

Fixokit 310 Flex Grade

Description : Fixokit 310 Flex Grade is a specially formulated cyanoacrylate adhesive designed for the fabrication and installation of flex sign boards, hoardings, glow sign boards, and advertising displays. It provides strong and reliable bonding between flex materials and metal frames, ensuring quick fixing, excellent holding strength, and long-lasting performance for indoor and outdoor applications.

Available Sizes : 12 ml, 15 ml, 18ml, 20ml

Applications : Specially For Flex Board

Shelf Life : 3 Months

Fixokit®

HIGH STRENGTH INSTANT ADHESIVE

FIXOKIT – LIQUID SPRAY ACTIVATOR

Description : Fixokit Liquid Spray Activator accelerates the curing process of adhesives, ensuring faster bonding and improved strength. Recommended for use with high viscosity gel adhesives.

Available Sizes : 50 ml, 100 ml

- Key Features :**
- Rapid curing action
 - Enhances bond strength
 - Easy spray application
 - Improves surface hardness

Applications : Used in combination with gel adhesives for quick and strong bonding

FIXOKIT – AEROSOL ACTIVATOR (SPRAY CAN)

Description : Fixokit Aerosol Activator is a gas-based spray designed for instant curing of adhesives. It ensures uniform application and is suitable for industrial and professional use.

- Key Features :**
- Instant curing
 - Uniform spray distribution
 - High efficiency
 - Reduces bonding time

Available Sizes : 500 ml (Aerosol Can)

Applications : Woodwork, modular furniture, PVC/WPC installations, and industrial bonding

Fixokit[®]

HIGH STRENGTH INSTANT ADHESIVE

FIXOKIT – DEBONDER (ADHESIVE REMOVER)

Description : Fixokit Debonder is a specially formulated solution designed to safely and effectively remove cyanoacrylate (instant adhesive) residues. It helps in loosening bonded joints, cleaning excess adhesive, and correcting application errors without damaging most surfaces.

Available Sizes : 50 ml, 100 ml

Key Features:

- Effectively dissolves instant adhesives
- Helps in removing excess glue and residues
- Assists in correcting misaligned bonding
- Easy to apply and quick action
- Suitable for controlled usage

Applications:

- Removal of dried adhesive from surfaces
- Cleaning tools and application areas
- Separating mistakenly bonded parts
- Industrial and household use

PVC INSULATION TAPES – PRODUCT RANGE

Imported PVC Insulation Tape – JINDAL

Description : JINDAL PVC Insulation Tape is a high-quality electrical insulation tape designed for reliable performance in various wiring applications. Made with durable PVC film and strong adhesive.

Available Sizes : Length: 6 Meter & 15 Meter | Width: 15 mm

Key Features :

- Strong and consistent adhesive grip
- Moisture and abrasion resistant

Color Options : Black, Red, Yellow, Blue, Green

Applications :

- Electrical wire insulation
- Cable wrapping and bundling
- Domestic and industrial wiring
- General repair and maintenance

PVC INSULATION TAPES – PRODUCT RANGE

INDIAN PVC INSULATION TAPE WONDER | GOLDY | POGO

Description : Wonder, Goldy, and Pogo PVC Insulation Tapes are designed to deliver dependable performance across all standard electrical applications. With good adhesion and flexibility,

Available Sizes : Length: 4 Meter, 5 Meter, 6 Meter, 7 Meter | Width: 15 mm

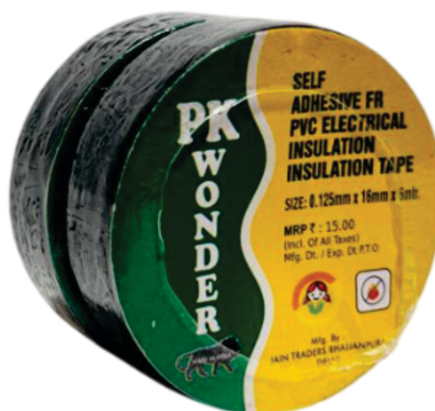

Key Features :

- Strong adhesive for secure application
- Suitable for regular electrical use

Color Options : Black, Red, Yellow, Blue, Green

Applications :

- Electrical wire insulation
- Cable wrapping and bundling
- Domestic and industrial wiring
- General repair and maintenance

FIXOTAPE

SELF ADHESIVE TAPE

Description : Fixotape BOPP Packing Tape is designed for secure and efficient carton sealing. It provides strong adhesion and durability for industrial and commercial packaging needs.

Available Sizes : Length : 30m, 65m, 100m, 150m, 200m
Width : 1 Inch, 2 Inch, 3 Inch

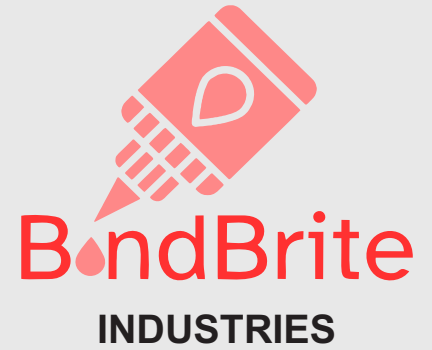

Available Colour : Brown, Transparent (Clear)

Key Features:

- Strong adhesion
- High tensile strength
- Smooth unwinding
- Long-lasting performance

Applications: Carton sealing, packaging, logistics, and warehouse operations
